Simple everyday work at the site

Manager web + employee mobile · Simplicity revision

Open a site. Add a photo. Or just speak.

One next job

A clear Start button. All work stays available when needed.

Less reading

Big pictures and everyday words. No caption is required.

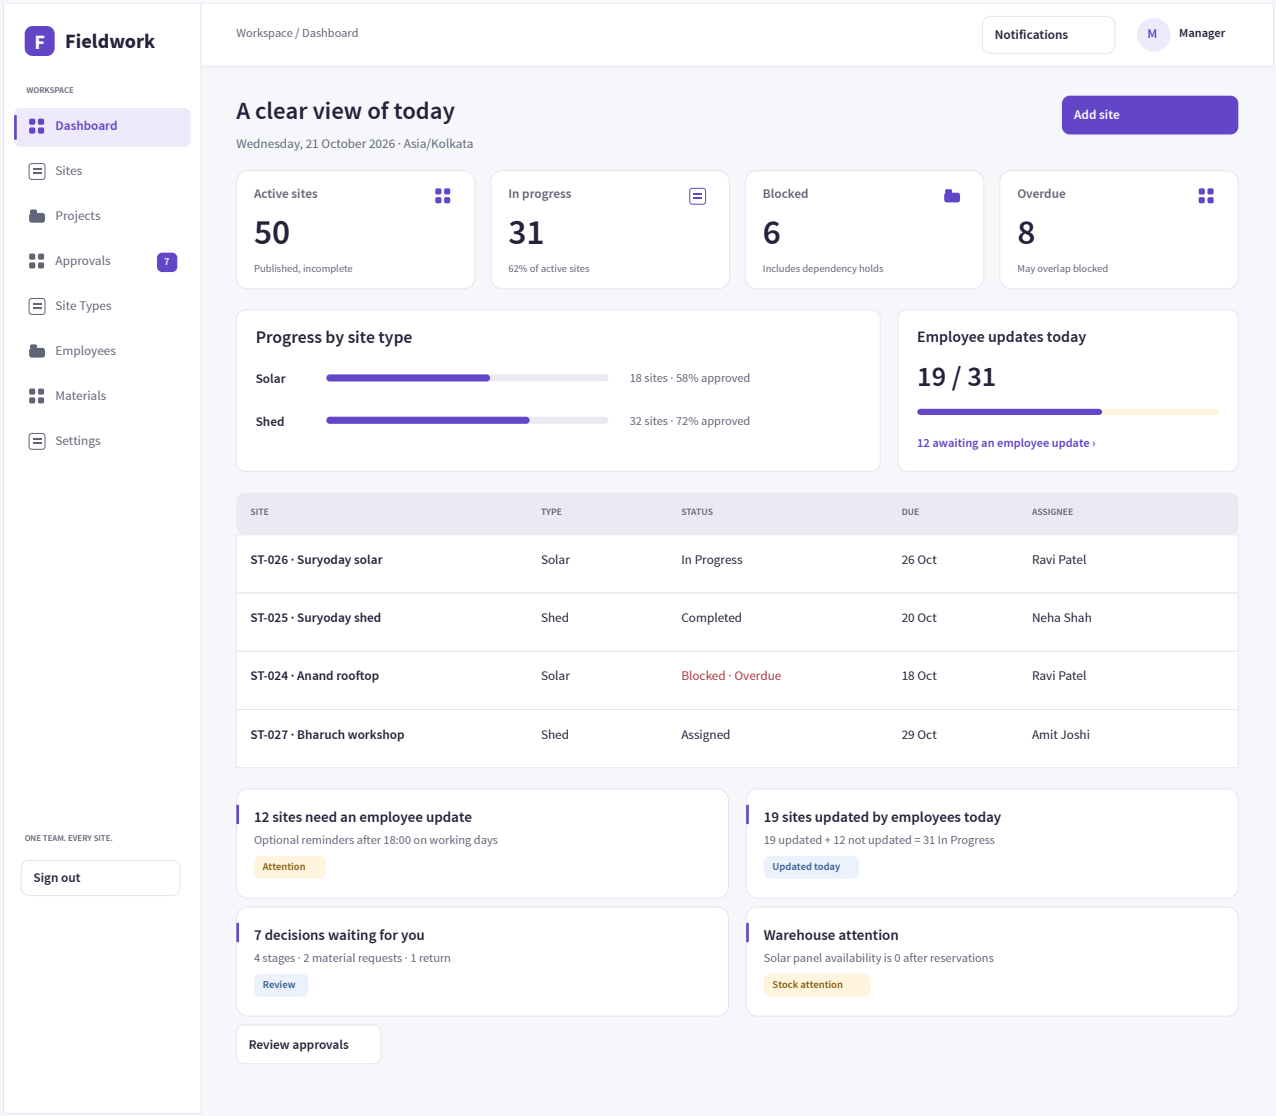

Your language

Hindi and Gujarati across the main employee tasks.

UI direction informed by the publicly shown product UI at onsiteteams.com. Original Fieldwork components and branding. Design prototype with illustrative data.

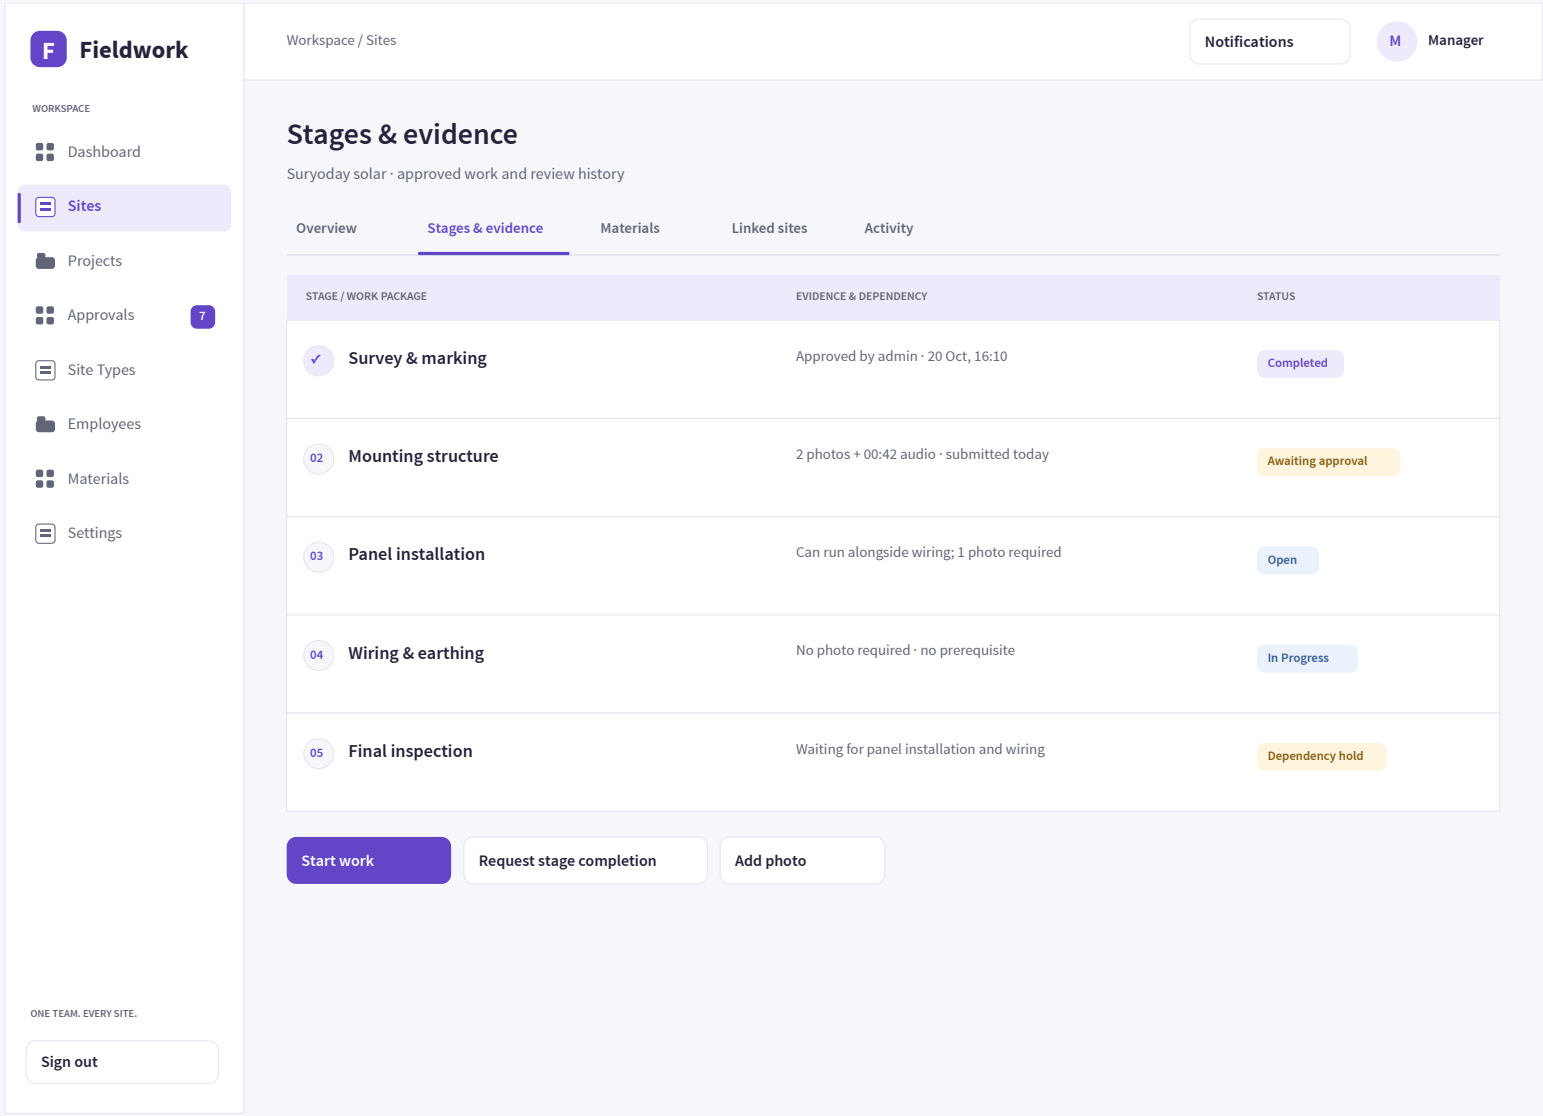

01 / Your operation at a glance

Manager dashboard · site register · decisions

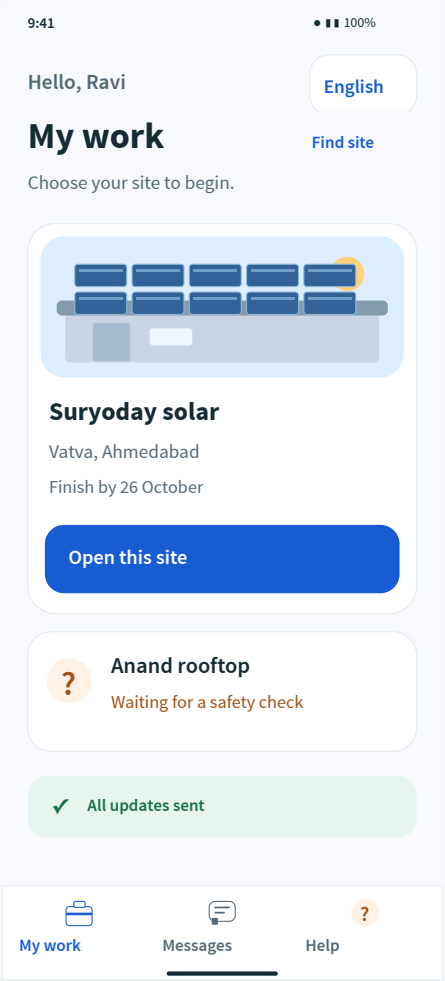

02 / Stages as a structured work register

No stage cards · evidence and dependencies stay visible

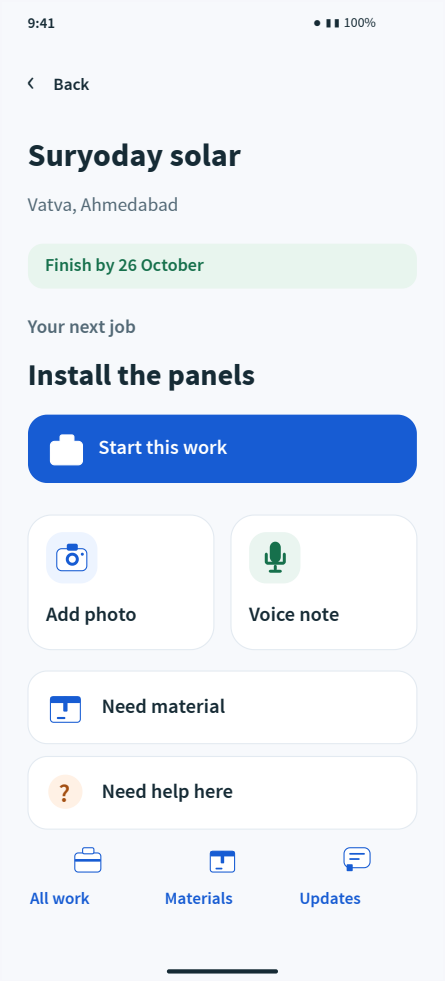

03 / One clear next job

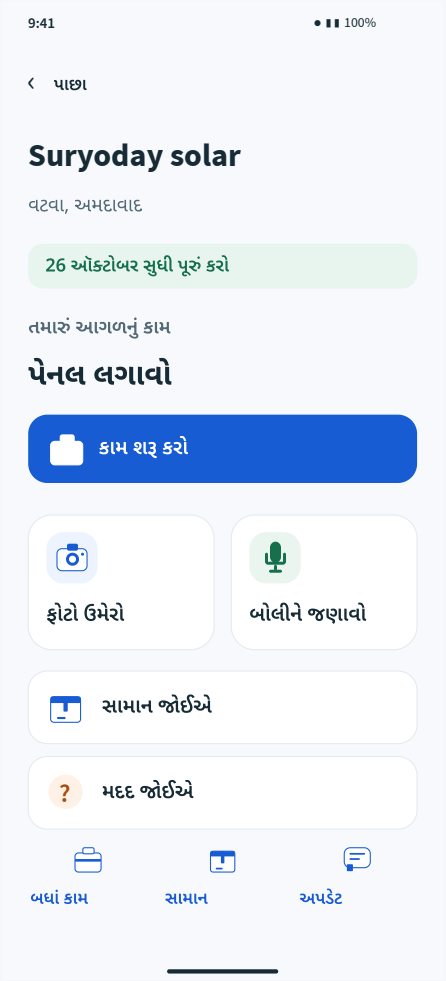

Large controls, simple words and no administrative status menus

1. Select the assigned site

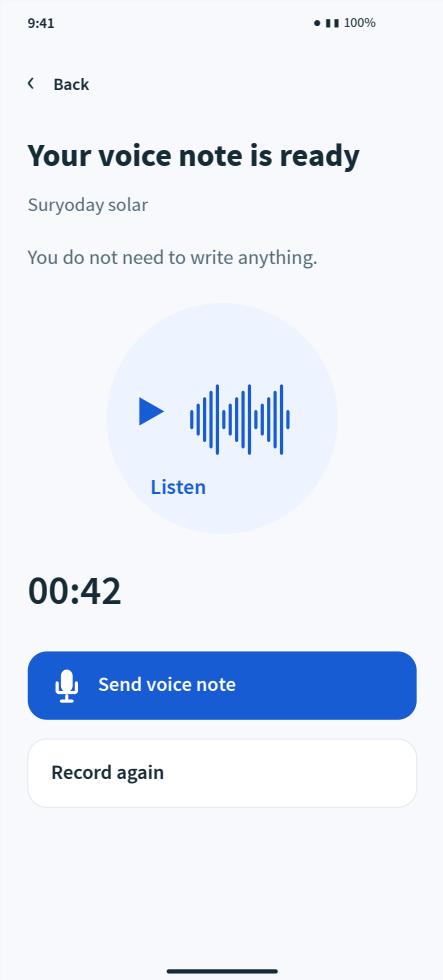

2. Start the next job

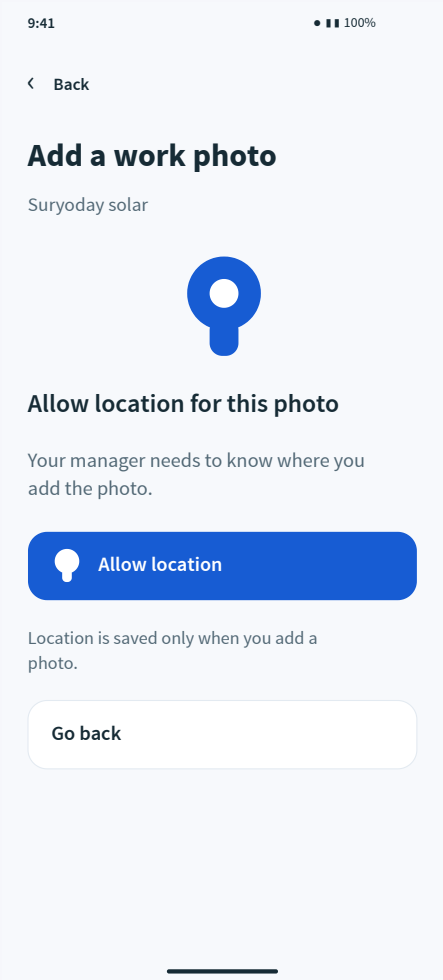

The same site in Gujarati

04 / Send a photo. Or just speak.

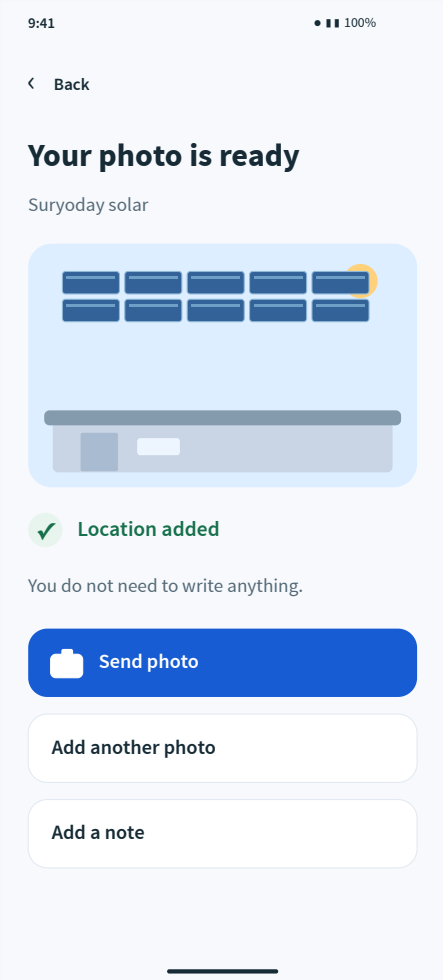

No typing or caption needed · photo location remains mandatory

Record, stop, review, send

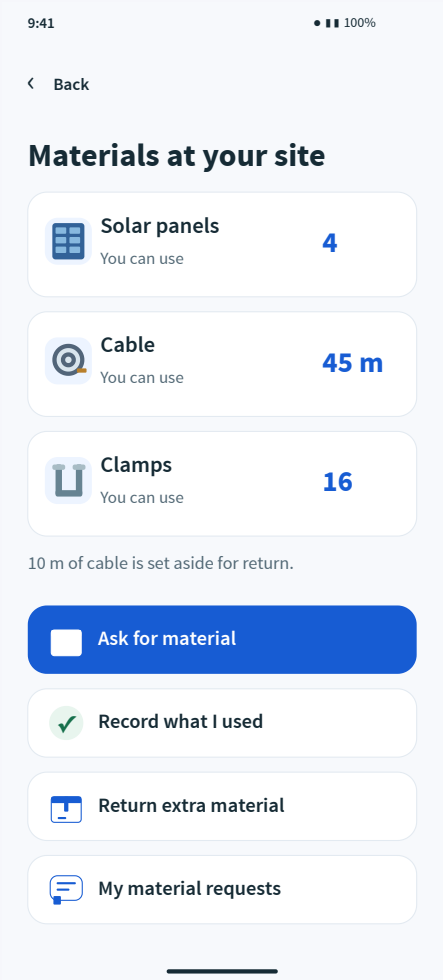

Explicit location permission

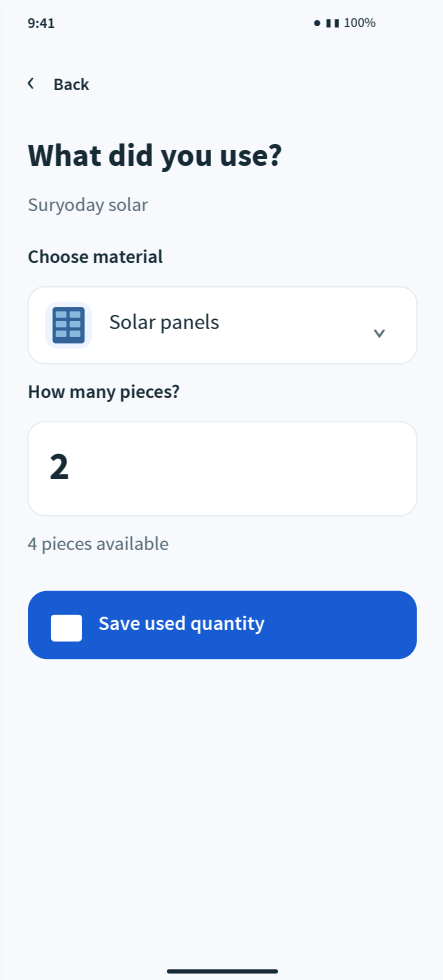

Send directly without a caption

05 / Ask for material in everyday words

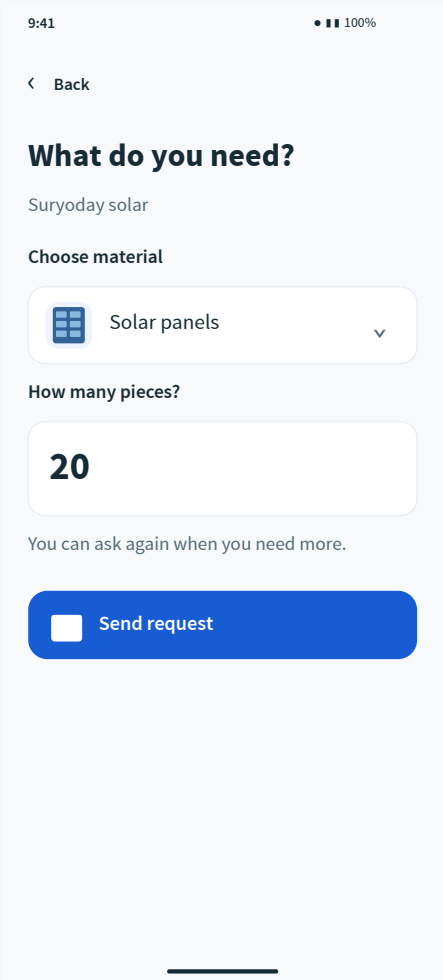

Choose the material, enter how many, then send

Available material at site

Record what was used

Ask for material

06 / Completion stays explicit

Employee requests approval; admin reviews evidence and decides

Review stage completion

Mounting structure · attempt 2 · submitted by Ravi Patel

Evidence rule
At least one photo

Photos received
2 · location metadata accepted

Audio context
00:42 · ready to play

Previous attempt
Changes requested: add close-up

Evidence photo 01
Added 10:40 · 23.0225, 72.5714 · ±18 m
Location recorded

Voice update
Ravi explains completed anchor inspection
00:42

Approval is explicit, including admin-authored submissions. Approving the final remaining stage completes the site atomically.

Approve stage

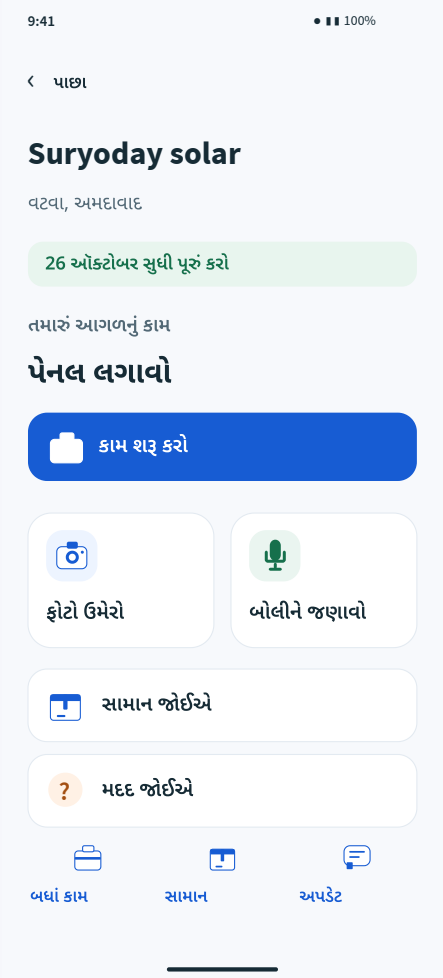

Request changes

07 / Gujarati across everyday tasks

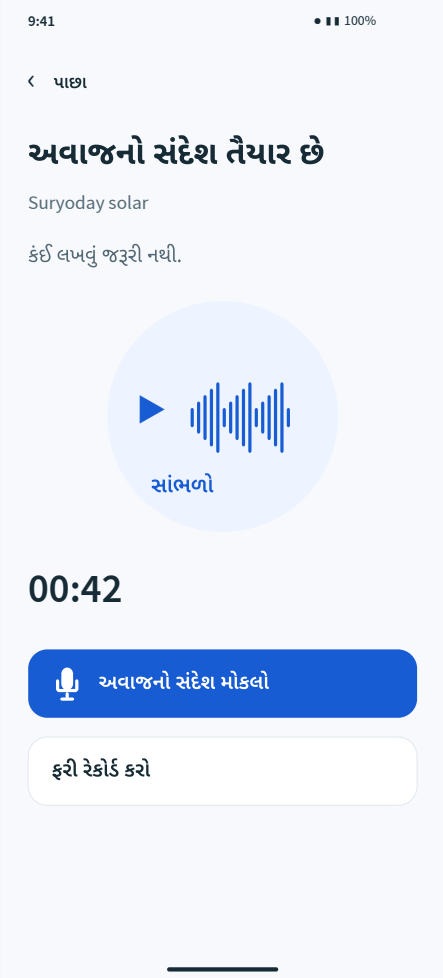

Home → site → voice update, without changing to English

Find your assigned site
